Field Day 2022

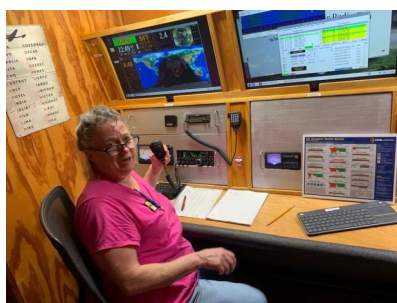

Another Field Day under our belt, and as always TARC membership came out to help setup, take down and participate in weekend events.

This was the first shake down cruise for the renovated TARC trailer, and all seemed to work really well. We had some issues with antennas this year so something to work on for the future.

Visiting from Oklahoma, John, Josiah, and Isaiah the mic making first HF contact.

The tower trailer had many ups and downs this weekend. Literally ups and downs as we had antenna problems and raised and lowered it several times, and it worked great

More Field Day

We had quite a few guest this year.

Andrea Young Deputy Mayor
KO4PHN

Jeff Beals Red Cross
WA4AW

Barry Porter Red Cross
KB1PA

Dwayne Heroux Bears
KM4HCN

Hylan Boxer Races / Aries /

TARC Minutes for June 2022

Meeting was called to order. Pledge was said and everyone went around and introduced themselves. Minutes and treasury report were read and approved.

Tom thanked everyone for all their hard work to make this a great field day. We had people volunteer to put up antenna trailer and to help take it down. Lots of fun, and lots of good food.

We had the Russell family from OK visiting. Their youngest son Isaiah made his first contact.

Congratulations!!! Way to go!!!

It was brought up that there is a January field day and would anyone be interested in participating in it?

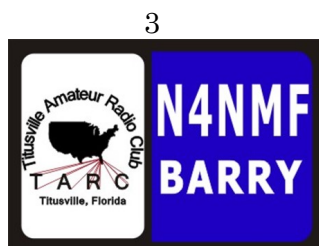

The next project is finishing up the Mims tower. As soon as we can get a climber a date will be set.

Fellowship and good food followed.

From the Editor

It has been a year since I started the club news letter. This has been a fun project for me, and I appreciate all that contributed with pictures or information.

I look forward to the next year and hope you all have enjoyed the news letter so far.

Please continue to support the news letter by contributing you photos and information, and remember you don't have to always be about radio stuff. Any project you are doing that you might think others would be interested in would be great.

Thanks again

Tom KN4GLO
